Architecture provides the framework, natural light gives the interiors their character, and spectacular on-site amenities elevate the lifestyle offered by this luxury penthouse for sale in Cabopino, Marbella with panoramic sea views and private rooftop pool.

With 173.25 m² of interior living space matched by 173.00 m² of terraces, the penthouse places equal emphasis on indoor and outdoor living. Floor-to-ceiling windows draw sunlight deep into the interiors, accentuating the generous proportions of the open-plan living and dining area while maintaining a constant visual connection with the surroundings. The modern kitchen forms an integral part of the layout, where elegant contemporary styling and premium finishes complement the home's calm, understated aesthetic.

BROMLEY ESTATES

Marbella

A carefully restrained palette of natural materials, warm timber and architectural detailing creates interiors that feel welcoming as well as sophisticated. The accommodation comprises three beautifully proportioned bedrooms, including a tranquil principal suite with a walk-in wardrobe and an elegant en suite bathroom. Two further double bedrooms and bathrooms continue the same design language, reinforcing a strong sense of continuity throughout the home. Underfloor heating throughout, air conditioning, two private parking spaces and a dedicated storage room complete a specification designed for comfort, practicality and everyday ease.

The rooftop introduces an entirely new way to experience the home. Panoramic views set the scene for the private plunge pool, covered dining area with barbecue and a versatile studio, creating an outdoor living space that naturally adapts from peaceful mornings to unforgettable evenings. Practical additions, including a separate laundry room and additional storage, complete the space.

The calibre of the exclusive Venere Residences development is reflected in every shared space. Beautifully landscaped gardens, an elegant communal swimming pool, luxurious wellness facilities and a fully equipped gym create an atmosphere of quiet exclusivity, while the secure gated complex with surveillance ensures complete peace of mind.

Complementing the lifestyle offered by the development, Cabopino occupies a distinctive position in Marbella, where protected green spaces remain an integral part of the coastal setting. The protected Artola Dunes, long sandy beaches and attractive marina have helped preserve a quieter, more relaxed atmosphere than much of the surrounding coastline, creating an environment that appeals as much to full-time residents as holiday homeowners. Despite its peaceful setting, the area enjoys easy access to excellent golf courses, international schools, beach clubs, restaurants and the many attractions found along this sought-after stretch of the Costa del Sol.

A design-driven penthouse capturing the very best of contemporary living in one of Marbella East's most desirable coastal locations.
