These contemporary villas with panoramic sea views are located in the popular resort of Benalmádena. The broad sandy beaches that front Benalmádena are lined with a long promenade that stretches along to the large, lively marina that is home to yachts, attractive marina apartment complexes and a hive of restaurants, cafés and entertainment venues. Across the main coastal boulevard are hotels, parks and also the heart of the resort area, with its own collection of shops and dining spots. From here residential areas of apartments, townhouses but also villas follow the gradient upwards into hilly terrain close to an old quarter that now adds a charming Andalusian village ambience to Benalmádena's varied offering.

Constructed in real Mediterranean style with spacious open plan interiors that make the most of those sea views with large floor ceiling to doors leading on to a private terrace. These contemporary villas with panoramic sea views boast a private saltwater pool where you can cool down on those long hot summer days. Outside on your terrace there is plenty of space to relax with friends and family and dine alfresco.

BROMLEY ESTATES

Marbella

There are 4 en-suite bedrooms with fitted wardrobes with the master opening out onto the upper terrace. The perfect place to watch the sun set. These contemporary villas with panoramic sea views are brand new and are part of a gated community with private garage and communal gardens.

If you are looking for a luxury lifestyle here in Spain, then these contemporary villas with panoramic sea views are the perfect place to call home.
