The architects have incorporated their love of the coast and undulating waves within the curves of the roof and colour of the façade. When you step into the reception area of these stunning contemporary apartments in Benalmadena, you will be struck by the majesty of the double height ceilings and sculptures (by Portuguese artist Rogerio Timoteo). Similarly all communal areas are presented in a tasteful style and comfortably furnished. Onsite amenities include Jacuzzis, infinity pools with views towards Fuengirola, and even a business centre.

It's all about the lifestyle, placing equal importance on the interior living space and outdoor facilities. These superb contemporary benalmadena apartments are available in a choice of 2 or 3 bedrooms and there is also a selection of 4 bedroom penthouses with super stylish contemporary bathrooms. The living rooms are open plan and join seamlessly with the outdoor space through large patio doors, affording unfettered views across the Mediterranean. The large windows bathe the interior in sunlight, whilst pale natural wood floors add to the sense of space and add further texture. Penthouses have their own mini hot tubs and panoramic sea views.
