Located in the hills bordering a unique and protected nature area, this stunning new development in Estepona occupies a privileged position just moments from charming Andalusian villages, the areas most sought after sport facilities, stunning beaches and the many attractions of Marbella.

Designed in such a way that all the homes benefit from dramatic sea views, this new development really is something special.

Just 44 private residences are available within this gated community, providing two and three bedroom apartments, including 10 penthouses, each of which have their own private pools. Amongst the landscaped gardens, there is a beautiful heated pool, sun deck and outdoor covered kitchen for dining with family and friends.

To ensure that time in residence is as enjoyable and hassle free as possible, a comprehensive concierge service is available. For the convenience and safety of owners, there are ample underground parking spaces, private storage areas and 24hr security with guarded patrols to ensure peace of mind.

On the Mediterranean coast, maximising the quality of the space outside is as important as what is on the inside, so great care, time and effort has been dedicated to ensuring that the communal areas are well designed, spacious and secure. All apartments face onto the sea and gardens that are beautifully landscaped. An inviting 25m heated pool sits adjacent to a well-appointed sun deck with comfortable loungers and an inviting covered terrace and kitchen area with barbeque facilities and ample seating and lounge areas.

These fabulous apartments tick a lot of boxes and we are confident it wont be long before they are all sold, so if you would like to receive full details and the latest availability, please let us know.
