Offering an exceptional opportunity to build a luxury home, this plot for sale with a fully licenced villa project in Mijas Golf, Mijas Costa, is located within one of the most desirable golf communities on the Costa del Sol. With the plans already thoughtfully laid out and still offering flexibility for customisation, this is an ideal choice for buyers looking to create a personalised retreat in a peaceful yet well-connected location.

The proposed design for a contemporary villa that incorporates touches of classic Andalusian charm includes four spacious en-suite bedrooms, generous open-plan living areas, and expansive south-facing terraces that offer open views across the golf course and surrounding mountains. Outdoor living is also well-considered in the plans, with space allocated for an infinity-style swimming pool, landscaped gardens, a chill-out area, and a barbecue zone. The design includes a private garage for two cars, plus covered parking for two more.
