The property has an abundance of potential and could be your next excellent investment.

The house can either be kept as two individual properties and the basement level could be converted into an additional self-contained apartment turning this investment into 3 separate properties allowing great opportunities for rentals in this vibrant up and coming area.

The property could also be converted into a traditional family home consisting of 3-6 bedrooms which again in such an area with high demand will increase the value tremendously. Should the property be converted into a conventional family home the basement area can easily accommodate additional bedrooms or turned into an impressive leisure facility including home cinema, spa, gym or games room. The possibilities are endless. A viewing is highly recommended in order to get a true appreciation of this property's incredible opportunities. Prices and quotes for all works will be provided by our professional construction and renovation experts.
