that provides an additional area for relaxation while enjoying the surrounding views.

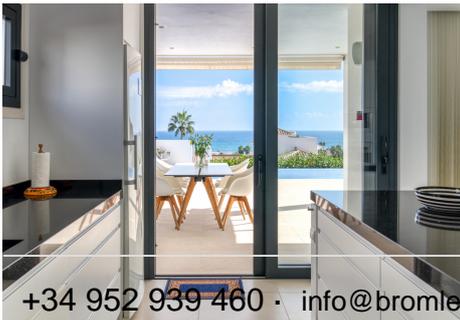

The lower level introduces a flexible area that includes a fourth bedroom with natural light, together with an extensive garage space of approximately 139 m² suitable for several vehicles and storage. This level also offers the possibility to create additional leisure facilities such as a gym, hobby room or guest suite if desired.

Outdoor living plays a central role in the design of the property. Terraces extend from the main living areas towards a heated infinity pool positioned to take advantage of the open views. Low-maintenance landscaped gardens surround the house, while a rooftop solarium creates an elevated viewpoint designed for relaxation and taking in the panoramic outlook.

Underfloor heating throughout the property, air conditioning and integrated Wi-Fi support year-round comfort. The property is offered fully furnished, allowing the interiors to reflect the same contemporary design language seen throughout the architecture. The coastline and a variety of nearby amenities can be reached easily on foot, making it possible to enjoy daily life without needing to rely on a car, a rare advantage in many residential areas along the Costa del Sol.

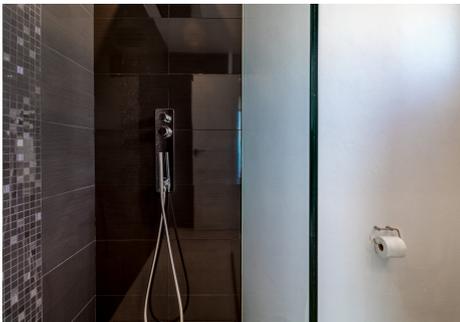

La Cala de Mijas has evolved into one of the most established lifestyle destinations in Mijas Costa. Restaurants, cafés, shops and a lively beachfront promenade create a vibrant year-round atmosphere, while renowned golf courses including La Cala Golf Resort reinforce the area's reputation as one of the Costa del Sol's most desirable golfing locations. From the villa, the centre of La Cala with its restaurants, bars and shops is just a five-minute walk, while the beach and promenade are approximately fifteen minutes away on foot, enhancing the area's appeal for both family living and high-quality holiday rentals.

The property reflects this balance of coastal living and modern design, creating a contemporary home shaped by light, space and outdoor living.
