and bathroom are original, offering a wonderful opportunity for personalisation or future enhancement, depending on the new owner's vision. Air conditioning via split systems in the rooms ensures year-round comfort.

Practicality is equally considered, with the inclusion of a generous private storage room and a secure underground garage space valuable additions that enhance both convenience and long-term investment appeal.

Located adjacent to Santa María Golf & Country Club and just minutes from Elviria's sandy beaches, international restaurants, beach clubs, and everyday amenities, this is a property that delivers on lifestyle as much as location.

An excellent opportunity to acquire a sea-view apartment in one of Marbella East's most desirable and established residential enclaves, with scope to add further value over time.
