Ideal for multi-generational living, with its split-level floor plan providing exceptional privacy, the lower level offers excellent separation for teenagers, visiting family, long-term guests or independent in-law accommodation, creating a highly adaptable living environment rarely found in townhouses within this price range.

One of the property's standout features is its private internal lift serving all three floors. While currently not in use by the owners, it is ready for reactivation, offering a rare level of comfort, convenience and accessibility seldom available in comparable townhouses. Combined with step-free access through the garage, it provides excellent long-term practicality for buyers seeking improved accessibility or future-proof living.

The entrance level forms the heart of the home, featuring a bright, fully equipped kitchen with breakfast bar, a spacious living area centred around an elegant Emperor marble fireplace, and a partially enclosed terrace currently arranged as an all-season dining room, complemented by an additional open terrace enjoying partial sea views and a guest bathroom. The flexible layout also allows for a formal dining area within the main living space, offering buyers multiple possibilities to tailor the home to their lifestyle.

The upper floor comprises two en-suite bedrooms, including a spacious primary suite with its own private terrace enjoying panoramic views, while the second bedroom also benefits from its own en-suite bathroom.
